PROFILE SUMMRAY

Motivated and dedicated third-year Computer Science Engineering student at Lattakia University with a strong passion for full-stack web development. Skilled in building efficient, scalable, and user-friendly applications using modern JavaScript technologies. Enthusiastic about solving complex problems, continuously learning, and contributing to real-world projects through open-source collaboration.

EXPERIENCE

FULL-STACK WEB DEVELOPER (FREELANCE PROJECTS)

Self-Directed • August 2023 – Present

- Built and deployed over 17 web applications, ranging from single-page tools to fully featured platforms using React, Vue.js, Next.js, Node.js, Express.js, NestJS, MongoDB, and MySQL.
- Designed and developed responsive frontends with React and Vue, incorporating reusable components, modern UI patterns, and TypeScript for better scalability and type safety.
- Created clean, secure RESTful APIs and backend services using Node.js, Express, and NestJS, integrating with MongoDB and MySQL to handle data efficiently.
- Deployed applications via Vercel and Netlify, handling environment configuration, basic CI/CD setups, and authentication logic (including JWT).
- Notable projects include:
- Task Manager App – A personal productivity tool with full CRUD, JWT-based authentication, and responsive design.
- Multilingual E-Commerce UI – Built with Next.js and TypeScript, featuring dynamic routing, server-side rendering, and language switching.
- Managed all phases of development: planning, writing clean and maintainable code, version control with Git, and publishing live apps.
- Frequently contribute to open-source and personal projects on GitHub, with a focus on clean code, documentation, and community engagement.

SKILLS

Frontend:

- HTML5, CSS3, JavaScript, TypeScript
- React.js, Vue.js, Next.js

Backend:

- Node.js, Express.js, Nest.js
- MongoDB, MySQL

EDUCATION

Bachelor's Degree: Lattakia University
(formerly Tishreen University) - Computer
Science Engineering
Lattakia, Syria | Expected in August 2028

KEY HIGHLIGHTS

- +2 Years of Experience in Full-Stack Web Development
- 17+ Projects Completed, from idea to deployment
- Fluent in 3 Languages: Arabic (Native), English (Advanced), Turkish (Intermediate)
